They are known as an industry-leading innovator of garage door solutions. The company offers a complete collection of steel garage doors, as well as aluminum, fiberglass, vinyl, and wood options. Some of Wayne Dalton's garage doors have been featured on the HGTV program, Property Brothers. Wayne Dalton Garage Door Options and Features Door Sizes Wayne Dalton garage doors are available in a wide range of sizes, from 6' x 7' to 18' x 9', depending on the specific series and door style. Find all available sizes at: Insulation Wayne Dalton uses both polyurethane and polystyrene to insulate their garage doors. The polyurethane insulation uses a foamed-in-place process meaning the foam is piped into the door after basic construction. Polyurethane provides the highest R-values, adds strength, and rigidity to the door panels. Polystyrene insulation is used in rigid sheets that are inserted into the door cavities during construction. Torque Master™ Plus TorqueMaster™ Plus is Wayne Dalton's exclusive counterbalance system that safely contains the springs inside a steel tube. Containing the springs keeps them clean and helps them last longer. The system also includes an anti-drop safety device that prevents the door from falling if a spring should break. Source: CreativeDoor.com TruChoice™ Color System This is Wayne Daltons custom paint option, available on most of their steel garage doors. TruChoice™ offers over 6,000 colors applied in a multi-step process that bakes the color onto the door for a high-quality factory finish. TruChoice™ can match almost any color, including RAL colors and colors from most major paint manufacturers. Collections Steel Wayne Dalton carries a full line of steel garage doors within their Carriage House, Designer Steel, and Classic Steel collections. The doors feature a variety of options, architectural styles, and price ranges. Below you'll find Wayne Dalton 9700 series garage door prices. Source: Wayne-Dalton.com Carriage House Steel 9700 and 6600 Series These doors feature the look of a traditional carriage house, swing-out door with embossed, high tensile, steel panels that replicate the appearance of real wood. The 9700 Series offers 19 door styles, 11 window options, and 15 standard, plus custom TruChoice™ colors. The 6600 model features DecaTrim™ II overlay boards to add dimension and character to the door. These boards are treated to resist termites, weather, and fungal decay. Available in 22 door and 12 window options. Construction: Steel Insulation: Polyurethane R-Values: 10.0 - 12.12 Colors: Standard and Custom Price Range: \$2,000-\$4,000 Designer Steel 9510 Series The 9510 Series creates a carriage house look with tall section heights and large windows in a full-section embossment design. Choose from 10 door and 10 window styles plus 2 wood-grain finishes, as well as standard and custom colors. Construction: Steel Insulation: Polyurethane R-Values: 12 Colors: Standard and Custom Price Range: \$1,800-\$2,500 Classic Style Steel 9100, 8300 and 8500 Series The 9100 Series is one of Wayne Dalton's most popular steel door collections and comes with integrated struts, pinch-resistant panels, and TorqueMaster™ Plus. There are 5 classic and contemporary door styles, over 20 window options including 8 with decorative metal grilles. Series 9605 includes the same features and options as the 9100 Series, but gives you the flexibility to place the windows in vertical and horizontal configurations, covering up to 50% of the door. Glass choices include clear, tempered, insulated, tinted, and etched. The 8300 and 8500 Series are Wayne Dalton's best-insulated steel garage doors. The 8300 provides an R-value of 12.12 and 8500 comes with a 16.22 R-value. Both models include a heavy-gauge steel wrap around the end caps. There are 5 door designs and over 40 window styles to choose from. These doors are available in 3 wood-grain finishes. Following you'll find Wayne Dalton 8500 garage door prices and Wayne Dalton 8300 garage door prices. Construction: Steel Insulation: Polyurethane R-Values: 9 to 16.22 Colors: Standard, Custom, Wood-Grain Price Range: \$ 500-\$4,000 Classic Steel Entry-Level 8000, 8100, and 8200 Series These steel garage doors are Wayne Dalton's most affordable steel door collection. Choose a door with or without insulation. All models feature the TorqueMaster™ and are available in 3 door designs, 18 window choices, and 6 painted and wood-grain finishes. Construction: Steel Insulation: Optional - Polyurethane R-Values: 0 to 7.4 Colors: Standard, Custom, Wood-Grain Price Range: \$500-\$1,500 Classic Steel - Polyester Finish 8024 and 8124 Series These 24-gauge, embossed steel doors feature a two-coat, baked-on polyester finish making them virtually maintenance-free. 8024 is not insulated and 8124 is insulated. Choose from 3 door style, 16 window options, and available in white or almond. Construction: Steel with Polyester finish Insulation: Optional - Polystyrene R-Values: 0 or 3.7 Colors: White or Almond Price Range: \$1,100-\$2,200 Designer Steel and Fiberglass 9800 Series (Faux Wood) These doors feature a molded wood-grain fiberglass surface bonded to the steel creating a door that closely replicates the beauty of real wood. These doors are insulated with foamed-in-place polyurethane and are available in 4 door designs, 16 window options, and 10 finishes that create the look of stained wood. Construction: Steel with Polyester finish Insulation: Polyurethane R-Values: 7.6 Colors: 10 wood stain-look finishes Price Range: \$1,800-\$3,500 Specialty Vinyl 8700 Series The 8700 Series are made of durable vinyl and polymers with UV protection making them a perfect choice for coastal regions. The doors won't rust, fade, crack, or dent and are completely resistant to salt, sand, and humidity, and are well insulated for superior thermal efficiency. Choose from 2 door styles, 4 window styles, and 4 colors including Monterey Sand and Cape Cod Gray. Construction: Vinyl with Steel C-channels and stiles Insulation: Polyurethane R-Values: 11.75 Colors: 4 Price Range: \$2,800-\$4,500 Aluminum 8450, 8800, and 8850 Series Wayne Dalton's aluminum and glass garage door collection will enhance the curb appeal of any modern or contemporary home. The 8450 features a frameless look with a variety of glass options including mirrored, and white or black opaque. Source: Wayne-Dalton.com Series 8800 and 8850 both feature an aluminum frame with optional insulation and large glass panels creating a clean, contemporary appearance. Choices include a standard or double wide frame and a variety of glass options. Construction: Vinyl with Steel C-channels and stiles Insulation: Optional R-Values: 0.0 or 4.36 Colors: Standard plus 200 custom powder coat finishes Price Range: \$1,800-\$3,500 Wood Source: Carrossoverheaddoorinc.com Wood Carriage House 7400 Series The 7400 Series features the look of a traditional swing-open carriage house door with the convenience of a sectional garage door.
