The ditty bag book pdf downloads free full version

Pattern Round 1: k2, * p2, k4 *, end last repeat k2 Pattern Rounds 2 & 3: knitThe Purl Stripe pattern picture is shown in black & white so the pattern is more visible. Measurements: Yellow Ditty Bag: full height is 6.25 inches tall (16 cm), 5 inches for the pouch area (13 cm), and 4 inches in diameter (10 cm). Note: in the eyelet picture you can see a tail of yarn. It is the cast on end. I tuck it between needles to mark the beginning of the round. The picot edge makes it very hard to tell where the beginning is. You can also use a safety pin type stitch marker, but, if you are like me and don't have a ditty bag yet, you may not know where they are. Knit all rounds until the bag measures at least 3.5 inches. As pictured, the completed yellow bag measures 3.5 inches before the base shaping. The cast on edge may look a bit wonky. Don't worry about it, it won't be seen when you are done. This picture makes it look like the two yarns ends will be at the same end of the needle. This is not the case. Row 2: knit all but the last stitch. Divide sts onto three needles and shift the unworked st to the first needle. You will be joining to work in the round. Be sure there isn't a twist in the join. It is 4 times 75 inches. (60 sts) Rounds 4 - 7: knit Round 8: * k2tog, yo * Rounds 9 - 15: knit. (120 sts) Rounds 4 - 9: knit Round 10: * k2, k2tog * (90 sts) Round 11: knit Round 12: * k1, k2tog * (60 sts) Round 13 & 14: knit Round 15: k1, * k2tog, yo twice, ssk, k2 *, end last repeat with k1, st(s) - stitch(es) yo - yarnover Yellow Ditty Bag Picot Edge: Make a slip knot about 8 inches from the end. Using the e-loop cast on, cast on 61 sts including the slip knot. First you'll wind a butterfly. This will allow the free end of lengths of yarn to untwist as you add twist to the starting end. Doesn't make sense does it? Bear with me. Starting about 24 inches from one end, wind the remainder around your fingers. This is the start of the butterfly. Knit until bag measures at least 3.5 inches from the eyelet round. The bag as shown is 3.75 inches from the eyelet round to the base. Purl Ridge Disk Base: Round 1: purl Round 2 & 3: knit Round 4: * p4, p2tog * (50 sts) Round 5 & 6: knit Round 7: * p3, p2tog * (40 sts) Round 8 & 9: knit Round 10: * p2, p2tog * (30 sts) Round 11 & 12: knit Round 13: * p1, p2tog * (20 sts) Round 14 & 15: knit Round 16: * p2tog * (10 sts) Round 17: knit Round 18: * k2tog * (5 sts) Cord: The minimum finished length of cord I recommend for using one of these bags on a wheel is 30 inches. The longest cord at 46 inches is shown here is on the purple bag. It is long enough to put the bag around my neck. Make the cord as long as you wish to suit your use. Purple Ditty Bag: Picot Edge: Work as shown above for the yellow bag. Join the picot edge and work three rounds and then the eyelet round. Knit all rounds until the bag measures at least 3.5 inches. As pictured it measures 4.25 inches before the base. Purple Ditty Bag: full height is 6.75 inches tall (17 cm), 5.5 inches for the pouch area (14 cm), and 5 inches in diameter (13 cm). Gauge: It is more important to get a fairly tight knit, like you would use for sock knitting, than to get a particular gauge. Gauge doesn't really matter, but here is the gauge I got: Finger weight: 30 sts x 44 rows over 4 inches (10 cm) Sport weight: 24 sts x 36 rows over 4 inches (10 cm) Abbreviations: k - knit k2tog - knit 2 stitches together p - purl p2tog - purl 2 stitches together ssk - slip as if to knit, slip a second stitch as if to knit, place back on left needle and knit together. 5 double pointed needles in size 1 US (2.25 mm) for fingering weight or size 3 US (3.25 mm) for sport weight. Round 3: k2tog (the unworked stitch and the first st on the first needle), knit to the end of the round. Blunt needle to sew in ends. Copying, modification, publication, broadcast, sale or other distribution of this material is prohibited. For a long time I have wanted a little bag to hold my little spinning tools. It needs to be something that will stay with my wheel. I am incredibly good at misplacing things, especially small items. Enter the Ditty Bag. What is a Ditty Bag? Traditionally it was a small bag that sailors kept their sewing supplies in. My husband knows of it as a small bag for shaving supplies (he is a shaving enthusiast). I set out to make a spinning Ditty Bag and thought I'd share what I learned. It would be a lovely little evening bag (silk yarn and beads???) or a cute bag for a child. With the blunt needle run the tail through the remaining loops twice. Pull tight. Weave in ends. Remember that the picot edge is essentially a folded hem with holes. If you just run the yarn inside the edge, it may poke out of the picots. I run it inside the edge trying to catch a few threads on the inside. How much twist is enough? It should be almost to the point where it kinks no matter how much tension you put it under. You can always test it by letting a short length fold in half. It should be tightly plied. The picture shows the test ply section with the twisted, but not plied section above and the free end hanging down. I find it easiest to start on 3 needles for a round or two and then shift to 4 needles (my preference). Here is how it will look after you've knit a few rounds past the picot round. Now you'll knit together the live sts with the cast on edge. The e-loop cast on edge has a series of loops in between the sts. There should be 60 loops (between the 61 sts cast on). Join Round (Round 16): Pick up the first loop to the left of the join and place it on the needle. Knit together the first st and the picked up loop. Repeat this process. Each live st will be knit together with a picked up loop. It may help to pick up loops on a smaller needle (if you have one). I pick up 10 or so at a time. It will get very awkward if you try to pick them all up in the beginning. (Yes, that is paint on my fingers!) The completed picot edge should look very clean. Disk Base: Round 1: purl Round 2 & 3: knit Round 4: * k4, k2tog * (50 sts) Round 5: knit Round 6: * k3, k2tog * (40 sts) Round 7 & 8: knit Round 9: * k2, k2tog * (30 sts) Round 10: knit Round 11: * k1, k2tog * (20 sts) Round 12 & 13: knit Round 14: * k2tog * (10 sts) Round 15: * k2tog * (5 sts) Red Ditty Bag Ruffle Top: Cast on 121 sts, turn work Row 1: knit, turn work Row 2: knit all but the last st. Divide sts onto 3 double pointed needles. Join, being sure to not twist. Move the unworked st to the first needle. Round 3: k2tog (knits together the unworked st and the first st for a stronger join), knit to the end. These books won't directly link to the literacy learning but your child could spend some time reading independently or share a book with you. More will be added when they have been scanned so please check back for more updates! Grey Blue Yellow Orange Pink Purple Green Red This material is © Oxford University Press. Red Ditty Bag: 100 yards of Tactile Superwash Merino sport weight in the Pomegranate colorway. Swirl Base: I used a modified star toe. Click on any image to see a larger version. All three bags are based on a 60 stitch tube. You can mix and match the bases and top edges. Or add a pattern stitch. I used sock yarn leftovers. They could be made with multiple yarns (stripes!) or handspun. I am resisting the urge to make more and try these ideas myself! The picot edge is a version I have not seen elsewhere. I was without my usual tools (again, I really need these bags to keep me organized!), so I improvised and was delightfully satisfied with the result. No provisional cast on required. Row 1: knit, turn work. The cord is made by twisting 4 lengths of yarn, folding it in half, and then letting them twist (ply). If you want a 30 inch cord you need to start with 2.5 times that length = 75 inches. That is not 75 inches of yarn folded into 4ths. I like to tie a knot at the non-knot end and trim the ends. It is about symmetry not stability. Weave the cord in and out of the eyelet holes and tie a bow. You are done with your bag! Here they are in their natural habitat. Rounds 17-20: knit Eyelet Round (Round 21): k1, * k2tog, yo twice, ssk, k2 * end last repeat k1. Purple Ditty Bag on my trusty Schacht Matchless. Red Ditty Bag on my Matchless. Purple Ditty Bag: 100 yards of Tactile Superwash Merino sport weight in the Eggplant colorway. All rights are reserved by OUP. At the bottom of this pattern and in the sidebar you will find links to pdf versions of the pattern, the picot edge tutorial, and a tutorial for making the cords. The pattern includes the tutorials. The picot edge and cord tutorials are also offered separately. No need to print off paper you don't want or need. :-) Materials: Yellow Ditty Bag: 100 yards of Tactile Superwash Merino fingering weight in the Meyer Lemon colorway. Continue until the entire length is twisted. Fold in half placing the starting and ending ends together. Let go of the remainder. It will ply in a swirling frenzy and probably not look like a cord at all. No worries. Tie the starting and ending ends together so they won't untwist. Beginning at the knot end, pull out the unwanted twistiness bit by bit. With your fingers pull and smooth it into an even cord. See! All better. (eyelet round) Round 16 & 17: knit If you want to add the purl stripe pattern, repeat the 3 rows below. For a plain bag, omit the pattern. Other uses: A center-pull ball of sock yarn will fit inside a sport weight Ditty Bag. Hang the bag over your wrist and you have socks on the go! If you make it taller, the whole project will fit inside. A pdf version of the Ditty Bag pattern can be found here. The Picot Edge tutorial is here. And the Twisted Cord tutorial is here. All are linked in the side bar as well. This photo session got me to dust off my wheels. They look so inviting it must be time to spin! Errata3/29/2009: edited to change purls and p2tog on the disk base (purple bag). There shouldn't be any purl stitches after the purl row that indicates the start of the base. Red Ditty Bag: full height is 6.25 inches tall (16 cm), 4.5 inches for the pouch area (11.5 cm), and 5 inches in diameter (13 cm). They are sorted into colours but there is no need to read them in any particular order or stick to a colour. This material is being made available for teaching and private study for pupils and staff of Ospringe CE Primary school only and may not be shared with any other person. Wind the end around the butterfly and secure the end by looping it under the previous wrap. Pull tight. When you need more length for twisting you can just pull it out of the butterfly without having to refasten anything. So very handy! Pinch the starting end firmly. Start twisting the yarn counterclockwise (letting the butterfly end be free to untwist). I say clockwise because that is the direction that most yarn was last plied in. Twisting the same direction as the last plying keeps it from untwisting and generally makes a more attractive cord. A minor distinction and it won't be a crime if you twist clockwise. Keep your fingers just a few inches apart. It is easier to twist short segments than to twist the entire length at once. When that length is fully twisted move down and twist some more. I either have someone very patient hold the starting end or I clench it in my teeth. Be sure to not let go of this end or you will lose all of your twisting efforts. You also need to keep it under tension or it will start to kink up. Yellow Ditty Bag on my lovely Reeves Frame wheel. The purl side as well.
